

Knee Retractor System

Designed by S. David Stulberg, MD

Helps free assisting personnel while providing excellent exposure

The Knee Retractor System holds retractors utilizing Velcro® straps. This helps eliminate obstruction of the surgeon's operative area and frees assisting personnel. Four retractor styles are available; straps are available in two lengths. Retractors and straps are autoclavable. The Retractors can be used singularly or in combination.

Velcro® is a registered trademark of Velcro U.S.A.

MIS Modified Wide PCL Retractor with Strap
