

Depth Gauge

Designed to help provide measurement of the depth/length of any bone hole for proper screw length determination

PRODUCT NO:

8015

Overall Length: 7.625" (19,4 cm)

Scale: From 0 to 48 mm

*** Accuracy Statement for devices with a measuring function:**

Devices with a measuring function are considered non-critical, non-calibrated, and are intended for reference-only measurements. While it provides a helpful visual guide for relative measurements, it is not calibrated to specific precision standards. Measurements taken with this device should not be considered accurate enough for critical applications requiring strict dimensional tolerances. General manufacturing tolerances of $\pm 1\%$ at each graduation, or 2% of the full scale apply, but no conformance qualifications are provided or implied.

ISO 13485:2016
