

## Modular Weights

*Help to free assisting personnel by helping to hold retractors in place*

Designed to hook onto a retractor handle, which helps the retractor stay in place by the weights attached rather than being held. The desired weight can be adjusted by attaching additional weights to the primary weight which has the attaching hook.

| PRODUCT NO'S:                          |   |
|--|---|
| <b>3430-00</b>                         | [Set of Three Sizes]                      |
